Profile

Market Intelligence Analyst specialising in competitive intelligence, industry trends, market sizing, and data-driven research. Built a market intelligence pipeline analysing **4,949 LinkedIn job postings across 10 countries**, with findings replicated against **3,897 additional postings**. Combines Python, NLP, Power BI, and enterprise stakeholder reporting to turn complex datasets into decision-ready insights.

Experience

Strategic Accounts Management Specialist

Oct 2025 – Present

SocialBeat

Chennai, India

- Monitor competitive positioning and industry trends across **four enterprise accounts** spanning FMCG, retail, luxury, and apparel, identifying market shifts and optimisation opportunities for senior stakeholders.
- Produce monthly performance intelligence covering social media, paid media ROI, and campaign performance, translating multi-channel data into executive-ready recommendations.
- Coordinate analytical reporting across **6 internal teams** including Creative, Paid Media, ORM, Design, Finance, and Video to maintain consistent client intelligence and delivery.
- Contributed to **1.25M+ combined Facebook and Instagram follower growth** and campaigns generating **800M+ audience impressions**.

Associate Researcher

Feb 2025 – May 2025

OILab, University of Amsterdam

Amsterdam, Netherlands

- Analysed large-scale online discourse to identify thematic and community-level patterns using **TF-IDF, NMF topic modelling, and Louvain community detection**.
- Built an end-to-end NLP and image-analysis pipeline from raw data collection through structured analytical outputs using Python and Google Vision API.
- Co-authored research poster *Follow the Memes*, translating computational analysis into research findings.

Digital Marketing Intern

Jul 2022 – Jun 2023

Chennai Super Kings

Chennai, India

- Supported digital marketing and audience intelligence across a **15M+ follower** sports brand during a live IPL season.
- Tracked social content performance and audience engagement metrics to support campaign optimisation and content decisions.

Projects

AI Adoption in Marketing Analytics Hiring – Market Intelligence Project

GitHub | Live Demo

- Analysed **4,949 LinkedIn job postings across 10 countries and 6 analytics job titles**; findings replicated on a **3,897-posting temporal scrape** in September 2026.
- Applied **TF-IDF, NMF topic modelling, and skill co-occurrence network analysis**; three independent methods converged on the same AI/non-AI segmentation boundary.
- Performed **TAM/SAM/SOM market sizing** by country and seniority and developed an **8-page Power BI dashboard** for market intelligence analysis.
- Deployed a live JD scoring tool on Hugging Face using **6,023 TF-IDF terms and 10 AI-exclusive skills** to estimate AI-signal intensity.

VCT Masters London 2026 – Analytics Dashboard

GitHub | Power BI

- Built an **11-page Power BI dashboard** covering player rankings, team performance, match win probability, and Swiss-stage simulation.
- Scraped **318 matches and 8,210 player-map rows** using Python, BeautifulSoup, Requests, and Pandas; implemented a custom ELO system, DAX measures, and **10,000-run simulation**.

Education

MA Cultural Data and AI

2023 – 2025

University of Amsterdam

Amsterdam, Netherlands

BA Communication and Media, Psychology, and English

2019 – 2022

Christ (Deemed to be University)

Bangalore, India

Skills

Analytics & BI: Power BI (DAX, Power Query, custom themes, Publish to Web), Python (Pandas, NumPy, scikit-learn, Matplotlib, BeautifulSoup), SQL, Excel

Market Intelligence: TAM/SAM/SOM sizing, competitive intelligence, competitive analysis, industry trend monitoring, dataset construction, feature engineering, research synthesis

AI & NLP: TF-IDF, NMF topic modelling, Hugging Face Transformers, Google Vision API, Claude, prompt engineering, RAG, AI-native analytical workflows

Certifications

Anthropic Real World AI for Everyone Specialisation – Coursera, May 2026 | **IBM Databases and SQL for Data Science with Python** – Coursera, June 2026
