PROFESSIONAL SUMMARY

Market Intelligence Analyst bridging custom Python web-scraping pipelines, NLP topic modeling, and TAM/SAM/SOM market sizing to transform raw web data into executive insights. Proven track record delivering competitive intelligence and BI reporting across 4 enterprise client verticals (FMCG, Retail, Luxury, Apparel). Combining an MA in Cultural Data & AI with behavioral research expertise to deliver decision-ready business solutions.

SKILLS & TECHNICAL PROFICIENCIES

- **Market Intelligence:** Competitive Intelligence, TAM/SAM/SOM Market Sizing, Industry Trend Monitoring, Consumer Insights
- **Analytics & BI:** Power BI (DAX, Power Query), SQL, Advanced Excel, Python (Pandas, NumPy, Scikit-learn, BeautifulSoup)
- **AI & NLP Frameworks:** TF-IDF, NMF Topic Modeling, HuggingFace Transformers, Automated Web Scraping, Feature Engineering

PROFESSIONAL EXPERIENCE

Strategic Accounts Management Specialist
SocialBeat

Oct 2025 – Present
Chennai, India

- Conducted competitive benchmarking and industry trend analysis across 4 enterprise verticals (FMCG, Retail, Luxury, Apparel), delivering actionable positioning insights directly to senior brand executives.
- Engineered monthly performance analytics frameworks in Power BI, integrating paid media ROI, audience metrics, and market trends to inform client budget allocation decisions.
- Coordinated cross-functional workflows across 6 internal departments (Creative, Design, Video, Paid Media, ORM, Finance) to ensure timely execution of data-driven growth initiatives.

Associate Researcher
OILab, University of Amsterdam

Feb 2025 – May 2025
Amsterdam, Netherlands

- Processed multi-country unstructured datasets using Python, TF-IDF, and NMF topic modeling to extract latent market trends and consumer sentiment.
- Built automated computer vision classifiers using Google Vision API and community detection algorithms (Louvain), resulting in a published co-authored research poster (*Follow the Memes*).

MARKET INTELLIGENCE PROJECTS

Global AI Hiring Market Intelligence Pipeline

Python, Power BI, NLP

- Built an end-to-end market tracking engine scraping 8,800+ job postings across 10 countries to quantify AI adoption trends in analytics roles.
- Applied TF-IDF, NMF topic modeling, and TAM/SAM/SOM market-sizing models; delivered interactive findings via an 8-page Power BI dashboard and custom Hugging Face scoring tool.

VCT Esports Competitive Analytics Engine

Python, Power BI, ELO Modeling

- Developed a 318-match web-scraping and ETL pipeline processing 8,200+ player data rows to build dynamic match win probability and ELO rating models.
- Engineered an 11-page Power BI dashboard featuring a 10,000-run Monte Carlo simulation engine.

EDUCATION & CERTIFICATIONS

MA in Cultural Data and AI
University of Amsterdam, Netherlands

2023 – 2025

BA in Communication and Media, Psychology, and English
Christ (Deemed to be University), Bangalore, India

2019 – 2022

Certifications: Anthropic Real World AI Specialization (2026), IBM Databases and SQL for Data Science with Python (2026)
